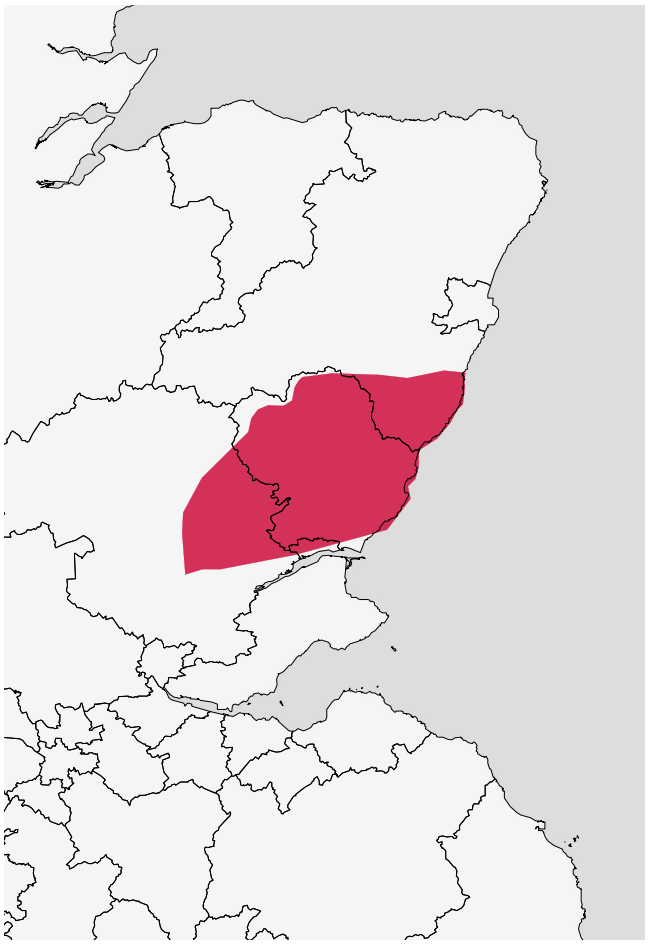
Red warning
Rain

Between
18:00 Thu 19 Oct 2023 and
12:00 Fri 20 Oct 2023



Exceptional rainfall expected to cause severe flooding and disruption

What to expect

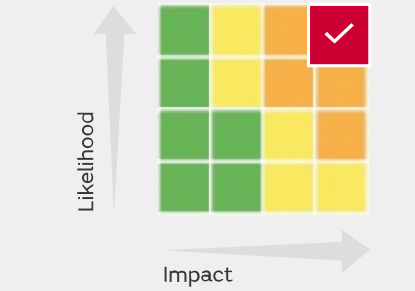
- Danger to life from fast flowing or deep floodwater
- Extensive flooding to homes and businesses
- Collapsed or damaged buildings or structures
- Road closures and bus and train service delays and cancellations
- Dangerous driving conditions because of spray and flooded roads
- Loss of power and other essential services, such as gas, water and mobile phone service
- Communities completely cut off, perhaps for several days

Further details

There is now high confidence in exceptional rainfall falling across southeast Grampian, particularly the uplands of Angus and south Aberdeenshire. 100-150 mm of rain is expected to fall widely within 24 hours with some locations likely to see 200-250 mm of rain which is expected to cause considerable impacts both where it falls and lower lying areas further east.

Reason for update

Warning area extended southwestwards into western parts of Tayside.



High likelihood of high impacts
